WEINGARTEN RIGHTS/STATEMENT

Additional Representation Rights:

The following holding of the U.S. Supreme Court in NLRB v. Weingarten, Inc., shall apply to investigatory interviews conducted by the employer that an employee, upon his/her request, is entitled to have a Union Representative present during an investigatory interview in which the employee is required to participate where the employee reasonably believes that such investigation will result in disciplinary action. The right to the presence of a Union Representative (Union Representative or Union Steward) is conditioned upon a requirement that the Union Representative be available for participation in such investigatory interview within twenty-four hours, excluding Saturday, Sunday, and Holidays, of the employee's request for his or her presence.

Weingarten Rules/Statement:

“I request to have a Union Representative present on my behalf during the meeting because I believe it may lead to disciplinary action being taken against me. If I am denied my right to have a Union Representative present, I will refuse to answer accusatory questions and any I believe may lead to discipline.”

Rule 1: The employee must make a clear request for Union representation before or during the interview. The employee cannot be punished for making this request.

Rule 2: After the employee makes the request, the employer must choose from among three options:

1. Grant the request and delay questioning until Union representation arrives and has a chance to consult privately with the employee;
2. Deny the request and end the interview immediately;
3. Give the employee a choice of having the interview without representation or ending the interview.

Rule 3: If the employer denies the request for Union representation and continues to ask questions, the employer commits an unfair labor practice and the employee has the right to refuse to answer. The employer may not discipline the employee for such refusal.

However, hours worked relieving an employee on an approved leave of absence shall not be counted toward triggering the posting requirement. Prior to posting, either party may request to meet and discuss whether the hours worked meet the above requirements. Such postings will be filled according to Article 20 – Filling of Vacancies.

The Union will notify the Hospital of its agreement to extend within five (5) business days of the Hospital's request.
- 14.3 At its sole discretion, the Hospital may discipline or terminate the employment of any employee during their probationary period and such discipline or termination shall not be subject to Article 32 – Grievance & Arbitration or Article 30 – Discipline & Discharge of this Agreement.

Employees who are on-call/callback status and are contacted to return to the Hospital will be paid one and one half (1½) times the employee's regular rate of pay based on actual hours worked subject to a guaranteed minimum of two (2) hours pay per callback. When an employee who is on-call is called back with less than two (2) hours before starting his/her regular shift, callback is paid only to the start of the regularly scheduled shift. While an employee is receiving on-call pay, the employee will not be eligible to receive callback pay for the same hours.
- b. An employee who is placed on-call in lieu of reporting to a scheduled shift will not be eligible for callback until the scheduled on-call start time has passed. For example, due to low patient census, an employee is asked not to report to his/her scheduled 1500 to 2330 shift but is to be placed on-call instead. The employee is called prior to 1500 and asked to report to his/her shift as originally scheduled. Time is paid as regular hours rather than callback hours, so long as at least one (1) hour or more notice is given prior to the beginning of the shift. If the employee is called and asked to report to duty with less than one (1) hour notice prior to the beginning of the shift, or after the scheduled start of the shift, hours worked will be paid as callback.
- c. Employees who are on-call and do not return to the Hospital when called or paged or are under the influence of drugs or alcohol while on standby, will be subject to appropriate disciplinary action up to and including termination.

Any Clinical Ladder Committee formed under this Section shall be with the intent of completing their work within six (6) months, though that deadline may be extended by mutual agreement. After completing its work the Clinical Ladder Committee shall be discontinued unless otherwise agreed to by the Union and Hospital.
- c. The Clinical Ladder Committee will consist of not more than four (4) Union and management representatives respectively.

ARTICLE 16 – SCHEDULING

16.1 POSTING OF SCHEDULES

- a. Employee preferences for scheduling must be received at least fourteen (14) days in advance of the posting date. In the case there are multiple requests made for the same days off that cannot be honored, consideration shall be given first to the appropriate skill mix needed and then to seniority.
- b. Employee schedules will be posted at least fourteen (14) days in advance of the start of the next schedule, subject to emergency situations. In the event a schedule is modified once posted, all who are put on or taken off of the schedule will be notified of those changes via telephone call or text message.
- c. It is the responsibility of the employee to check the posted schedule before days off. Once posted, the schedule will only be changed by mutual agreement between the Hospital and the employee, unless mandated by law.
- d. Once a schedule is posted, managers do not need to grant time off requests, however, if requests are granted, they will be considered by seniority.
- e. Employees may swap shifts with another employee if approved by management, or management's designee. Finding replacements for all other time off including PTO remains the responsibility of the Employer.

16.2 WEEKEND WORK

Employees shall be off at least every other weekend except employees who hold positions which normally includes working every weekend or employees who elect in writing to work additional weekend shifts. A weekend worked, or a weekend off, is defined as any two shifts between Friday at 1500 and Monday at 0700. When an employee is required to work a weekend, the Hospital shall make a reasonable effort to schedule the shifts on consecutive days.

Nothing in this Section shall prohibit a department from creating a schedule that allows for additional weekends off provided such a schedule meets staffing needs, does not compromise patient care, and does not violate any other sections of this Agreement.

16.3 EMPLOYEE SCHEDULE EXCHANGES

Employees in the same department and classification may exchange scheduled workdays so long as:

- a. The competencies of the employees making such exchange are relatively equal,
- b. No overtime or other premium pay results, unless expressly approved in writing by a supervisor. The Hospital shall provide a copy of the written approval to the employee, and
- c. The change is submitted in writing, or electronically if appropriate, and approved in writing/electronically in advance, by the appropriate manager/supervisor or designee.
- d. Managers and supervisors will respond in a timely manner to requests for schedule exchanges.

16.4 PTO REQUESTS

- a. PTO must be used for all scheduled work hours missed due to vacation, holiday, illness, family emergency, religious observances, doctor or dental appointments, personal business or other excused elective absences. Use of PTO is optional for low census days in accordance with Article 17 – Hours of Work, Section 17.12: Call-Offs.
- b. PTO requests must be responded to by the employee’s department manager or designee within a reasonable time frame, but in no case more than fourteen (14) calendar days.
- c. Employees will request PTO in writing or electronically if appropriate. Such requests shall include the date of the request, the dates of the PTO days requested, and the employee’s signature. All PTO approvals including request dates shall be posted and available to all employees in the respective department.
- d. When determining the availability of the requested PTO, consideration will include the availability of Hospital staff, as well as patient care and safety.
- e. The request will only be granted if the employee has adequate accrued PTO at the time of the request for the period requested, or will have adequate PTO accrued by the time they are requesting time off. In the case the employee does not have adequate accrued PTO by the time the request is to occur, the scheduled time off may be cancelled.
- f. No vacation request will be granted for more than one (1) year beyond the date of the request.
- g. PTO requests will not be unreasonably denied.
- h. PTO requests will be approved on a first-come, first-serve basis.

- i. In the case there are multiple requests made on the same day for the same days off that cannot be granted, the impacted employees will first be given a chance to modify their requests, then, if no agreement can be reached, PTO requests will be granted by department seniority.

16.5 EXTENDED PTO REQUESTS (FOR PERIODS OF ONE WEEK OF MORE)

- a. During prime time vacation months (June/July/ November/December) the Hospital shall only approve extended PTO requests for up to two (2) weeks to ensure all employees an equal opportunity for time off. Additional extended PTO requests during these months may be granted provided such request meets department operational, staffing and patient care needs. No vacation request will be granted for time off more than one (1) year beyond the date of the request. Vacation requests shall not be unreasonably denied when no other employee in the same department has an approved vacation for the same time requested.
- b. Vacation requests are subject to approval on a first come first served basis. Such requests shall be presented in writing or any electronic or paper format directed to management for his/her Department, to the Director/Manager or their designee and shall include the date of the request, the dates of the PTO days requested, and the employee's signature. Approvals shall include request date and shall be posted and available to all employees in the respective department.
- c. The date of delivery of the request shall govern. Department seniority shall be the tie breaker if two or more requests are received on the same day.
- d. If staffing and patient care requirements do not permit the approval of all requests for the same period, then department seniority shall be a determining factor within each department, provided however:
 - i. Department Seniority can be exercised only once each calendar year and only for a maximum of up to two (2) consecutive weeks during prime vacation months, and four (4) consecutive weeks during other months, and
 - ii. Employees will have one request granted per calendar year, in order of reverse Department Seniority, before a more senior employee has a second request granted.
- e. The Hospital will provide a written response in a timely manner but no later than fourteen (14) calendar days after the employee has submitted the request.
- f. PTO requests pursuant to the process above are contingent on the employee having adequate PTO for the period the PTO is to be used at the time of the request or will have adequate PTO accrued by the time the request is to occur. In the case the employee does not have adequate accrued PTO by the time the request is to occur, the scheduled time off may be cancelled.

16.6 HOLIDAY SCHEDULES

- a. The following holidays shall be recognized:
 - i. New Year's Day – minor
 - ii. Martin Luther King Jr.'s birthday – minor
 - iii. President's Day – minor
 - iv. Memorial Day – minor
 - v. Independence Day – minor
 - vi. Labor Day – minor
 - vii. Thanksgiving day – major
 - viii. Christmas day – major
- b. The Hospital will follow the State and Federal Uniform Holiday Laws. Therefore, the days officially adopted by the government for observing a recognized holiday will be adopted by the Hospital for the observance of such holiday. Notwithstanding this Section, Independence Day will be observed on July 4th.
- c. Full-time and part-time Employees must be available to work one (1) major and one (1) minor holiday per calendar year.
- d. Per Diem/relief employees must be available to work a minimum of one (1) major and two (2) minor holidays per calendar year.
- e. All holidays not filled by availability or volunteers will be scheduled by rotation by reverse department seniority.
- f. The Hospital will make a reasonable effort to avoid having an employee work both Christmas day and New Year's Day.
- g. The Hospital will make a reasonable effort to avoid having an employee work consecutive Christmas day, Thanksgiving day, or New Year's Day holidays in consecutive years unless the employee volunteers.
- h. No employee will be required to work both the eve and the day of Christmas or the eve and Day of New Year's.

16.7 VOTING TIME

- a. An employee is eligible for up to two (2) hours of paid time off during his/her shift for the purpose of voting in an election (federal, state, or local) only if he/she does not have sufficient time outside of working hours to vote. Time off for voting must be taken at the beginning or end of the employee's shift.
- b. The employee must request voting time off at least two (2) calendar days prior to the election date and such request must be approved, in advance, by the employee's supervisor.

ARTICLE 17 – HOURS OF WORK

17.1 DEFINITIONS

- a. “Workday” is defined as a 24-hour period, beginning at one or more times designated by the Hospital. The Hospital has the right to assign or reassign the workday for each employee based on the employee’s regularly scheduled hours. Until the Hospital assigns individual workdays, the workday for all employees begins at 12 a.m. and ends at 11:59 p.m.
- b. “Workweek” is defined as a period of seven (7) consecutive workdays, beginning on Sunday and ending on the following Saturday.
- c. “Pay period” is defined as a period of fourteen (14) consecutive days. The actual start of each pay period coincides with the start of the workday.
- d. “Regular rate” is calculated according to applicable federal and state laws.
- e. “Hours worked” means time spent in work-related activities. Hours worked does not include PTO, leaves of absence, jury duty, bereavement leave, educational leave, on-call, unworked guarantee hours or any other time away from the Hospital, regardless whether this time away from the Hospital is paid time.

17.2 OVERTIME

- a. Overtime will be paid in accordance with federal and state laws. In general, employees covered by this Agreement work an 8/80 schedule.
- b. For employees assigned to an 8/80 schedule:
 - i. Overtime is paid at one and one half (1½) times the regular rate of pay in the following situations:
 - (1) For hours worked in excess of eight (8) up to and including twelve (12) hours in a workday; and
 - ii. For hours worked over eighty (80) in a pay period.
 - iii. Double time is paid at two (2) times the regular rate of pay for hours worked over twelve (12) in a workday.
- c. For employees assigned to a straight time 10-hour schedule:
 - i. Overtime is paid at one and one half (1½) times the regular rate of pay in the following situations:

- (1) For hours worked over ten (10) up to and including twelve (12) hours in a workday; and
 - (2) For hours worked over forty (40) in a workweek.
 - ii. Double time is paid at two (2) times the regular rate of pay for hours worked over twelve (12) in a workday.
- d. For employees assigned to a straight time 12-hour schedule:
- i. Overtime is paid at one and one half (1½) times the regular rate of pay for hours worked over forty (40) in a workweek.
 - ii. Double time is paid at two (2) times the regular rate of pay for hours worked over twelve (12) in a workday.
- e. Any work time that qualifies as overtime pay under more than one of the above guidelines is paid only once. Example: An employee works nine, eight (8) hour workdays in a pay period, and then works nine (9) hours on the tenth workday. The last hour of work on the tenth workday qualifies as overtime because it exceeds eight (8) hours in a workday, and also exceeds eighty (80) hours in a pay period. Nevertheless, one (1) hour of overtime is paid, not two (2). Holiday, call-back and other premiums voluntarily paid by the Hospital will be credited against overtime due as permitted by federal and state laws.
- f. Until the Hospital assigns employees to a specific workday, and for overtime purposes only, the following rules for calculating daily overtime shall apply:
- All hours worked in a given shift will be attributed to the Workday during which the initial in-punch for that shift takes place. For example, if a 12 hour employee works a 14 hour shift from 7:00 pm to 9:30 am (assuming one 30-minute meal period), then all 14 work hours will be attributed to the previous Workday when the 7:00 pm punch-in took place. In this scenario, the employee would be paid 12 hours of base pay (pursuant to the Alternative Workweek Schedule), and two hours of double-time because all 14 hours are considered to have been worked in the previous Workday. The purpose of this “in-Punch” calculation is to “pre-pay” hours worked from a subsequent Workday to a prior Workday in order to maximize the overtime earned and paid to an employee when crossing a day divide during a given shift. With the exception of call back, which the Parties agree has always been interpreted as a separate shift, in the event an employee out for more than two and one-half (2.5) hours, all hours worked upon return will be considered a new shift for the purposes of calculating overtime. In addition, a break in a call back shift creates a new shift for purposes of overtime.
- g. When available, overtime shifts will be assigned from a list of those employees indicating their desire to work specific shifts by rotation starting with the employee with the most Union seniority. All Hospital employee requests to

work overtime shifts will be considered before assigning such shifts to travelers, registry or agency staff.

- h. Under normal circumstances, employees are required to have the approval of their supervisors or designee prior to working overtime. When prior approval cannot be obtained due to urgent or emergency situations, employees are required to report to their supervisor or designee the amount of overtime they have worked and the reason for having done so. The reason for having worked overtime must be documented on an edit sheet.
- i. The Hospital and the Union recognize that mandatory overtime is not desirable and represents a burden on the employee. Acceptance of overtime and shifts beyond the employee's schedule shall be voluntary and in accordance with state law or regulations, except where patient care would be endangered by an internal or external emergency declared by state, local or federal government, or declared by the administrator on duty. An internal or external emergency, for the purposes of this Section, is defined as an unexpected situation and sudden occurrence of a serious and urgent nature that results in activation of the Hospital's Disaster Plan.

Employees may not be required to work more than sixteen (16) hours in a work day, not including any on-call or callback hours, except as referenced in paragraph 16.2.i above.

17.3 TEN (10) AND TWELVE (12) HOURS SHIFTS

- a. In the event the Hospital desires to implement ten (10) or twelve (12) hour shifts the Union will be notified and a vote will be conducted in the unit and it will be decided by a simple majority of those who vote.
- b. Should any group of employees petition to implement ten (10) or twelve (12) hour shifts, the Hospital will grant consideration to the feasibility of the request.
- c. In the event an employee cannot work the ten (10) or twelve (12) hours shift, the Hospital will reasonably attempt to accommodate such employee if department needs can be met.
- d. In the event the Hospital desires to discontinue ten (10) or twelve (12) hour shifts in a unit, it shall meet and confer with the Union prior to such discontinuation.
- e. Twelve (12) hour employees shall not be scheduled to work more than three (3) consecutive shifts, unless requested in writing by the employee and approved by the employee's supervisor or designee.

17.4 REST AND MEAL PERIODS

- a. The Hospital will provide meal and rest periods in accordance with state and federal laws. Employees will receive a ten (10) minute paid rest break for each four (4) hours of work, and an unpaid meal period of thirty (30) minutes for each work period in

excess of five (5) hours. In the event state or federal laws are amended, such new provisions shall apply to bargaining unit employees when effective.

- b. Unpaid, unworked meal periods will not be counted as hours worked in calculating overtime to be paid under any provision of this Agreement.
- c. Employees shall take meal and rest periods when assigned, unless business needs make it impossible to do so. In such cases, employees must notify their Manager/designee as far in advance as possible so that alternative arrangements can be made. An employee who misses a meal or rest period must submit an edit form to his/her supervisor or designee.
- d. Some employees, due to the nature of their work, may be required due to departmental needs, to remain on ministry premises and/or carry a communications device during their meal period. Under these circumstances, the meal period is still considered off-duty, so long as the employee is not interrupted during his/her meal period or work related responsibilities. In the event an employee's meal period is interrupted due to work related responsibilities, the employee should be provided another full thirty (30) minute off-duty meal period within the appropriate time period. If it is not possible to do so, the employee should complete a time-keeping edit sheet.

17.5 REST BETWEEN SHIFTS

The Hospital will make a reasonable effort to provide adequate rest between shifts. The Hospital will not pre-schedule a break of less than ten (10) hours between shifts.

17.6 SPLIT SHIFTS

There shall be no split shifts. A split shift is defined as any two (2) distinct work periods separated by more than a one (1) hour meal period.

17.7 ALLOCATION OF OPEN SHIFTS

- a. Open Shifts are defined shifts that are not filled at the time the schedule is posted and shifts that become open after the schedule has been posted.
- b. The Hospital shall offer open shifts of work to employees in the same job title and department as long as the additional work would not cause the Hospital to incur overtime liability. Except in situations where there is less than twenty-four (24) hours until the start of shift time, the Hospital will offer open shifts of work by rotation starting with the employee with the most Union seniority according to the following preference list:
 - i. Regular full-time employees who have been called off;
 - ii. Regular part-time employees who have been called off;
 - iii. Regular part-time;
 - iv. Relief

The above preference order will not result in bumping employees out of shifts which are prescheduled.

Once exhausting the above rotation, the Hospital will offer overtime shifts by rotation starting with the employee with the most Union seniority before assigning such shifts to travelers, registry, or agency staff.

17.8 ALLOCATION OF ADDITIONAL HOURS

Where additional hours of work become available due to an unplanned absence, and management determines that such hours must be filled, the following process will apply:

- a. Employees who desire to be given additional hours of work shall submit, in writing, their availability for additional hours which shall indicate the day(s) of the week and hours for which they are available.
- b. The Hospital shall offer additional hours of work to employees who have made themselves available in the same job title and department as long as the employee is capable of meeting patient and operational needs. In the assignment of additional hours, the Hospital will first offer such work to Employees (including full-time, part-time, and relief) who would not incur overtime on a rotational basis beginning with the most senior employee.

17.9 REPORT PAY

If an employee reports to work for a scheduled shift, and is told no work is available, the employee shall receive a minimum of four (4) hours of work or any combination of work and pay totaling four (4) hours. If the employee is asked to work the four (4) hours, but wishes to leave, the employee may voluntarily 'call-off'. In this situation, no hours will be paid.

17.10 ON-CALL

- a. Employees placed on-call must respond within the required response time established by their department.
- b. The method of assignment and distribution of on-call duty shall be determined on a department-by-department basis with the following understandings:
 - i. The affected employees and department managers have agreed upon a method of assigning and distributing the on-call duty that meets the needs of the department.
 - ii. The method of distribution and assignment of on-call duty is equitable among the affected employees in the department, and no employee is required to bear a disproportionate on-call burden.
 - iii. Employees on a scheduled weekend off in accordance with Article 16 – Scheduling, Section 16.2, shall not be required to take on-call duty on such weekends. However, such employees may volunteer for such on-call duty.

17.11 CALL-BACK

- a. Call-back pay starts at the time of the employee's arrival in his/her department and has badged in.
- b. The employee will be paid the greater of time actually worked as shown in the timekeeping record or a two (2) hour minimum guarantee for each time he/she is called-back. When an employee who is on-call is called-back with less than two (2) hours before starting her/his regular shift, call-back is paid only to the start of the scheduled regular shift.
- c. An employee who is placed on-call in lieu of a normal shift will not be eligible for call-back pay until the scheduled on-call start time has passed. For example, due to low patient census, an employee is asked not to report to her/his scheduled 1500 to 2330 shift but is to be placed on-call instead. The employee is called prior to 1500 and asked to report to her/his shift as originally scheduled. Time is paid as regular hours rather than call-back hours, so long as at least an hour notice is given prior to the beginning of the shift.
- d. On-call does not start until the employee actually leaves the ministry premises. If an employee is placed on-call at the end of her/his regular shift and continues to work into the prescheduled on-call hours, this will be deemed a continuous shift and default to the normal rules of overtime payment. For example, an eight (8) hour employee works from 0700 to 1530 and is scheduled to be on-call at 1530; however, the employee is involved with a patient and does not actually leave ministry premises until 1700. The employee will be paid eight (8) hours at his/her base hourly rate and one and one-half (1½) hours at her/his appropriate overtime rate. The employee is not eligible for a two (2) hour minimum call-back in this instance because he/she never left the ministry premises.

 - ii. Employees regularly scheduled to work a ten (10) or twelve (12) hour shift shall be subject to mandatory call off of no more than one (1) full shift, or equivalent, per pay period.

Provided the unit has the appropriate skill mix, the Hospital will accept volunteers before any other employee is subject to mandatory call off, if that voluntary call off does not result in retaining an employee at premium pay who would have been called off.

- d. Records of call-offs shall be maintained in the Staffing Office or in individual departments, if applicable. Employees may review these records upon request.
- e. At the discretion of the Hospital, an employee who would otherwise be called-off in accordance with Subsection 17.12.f below and who has committed to being cross-trained to another unit or work area, may be retained for cross training purposes.

32.4 GRIEVANCE PROCEDURE DISCIPLINE AND DISCHARGE

a. Step 1 – Review with Ministry Human Resources Partner

The employee or Union must file a written grievance with the Ministry Human Resources Partner, or his/her designee. The grievance must be filed not more than seven (7) days following the date the discipline is issued. During the seven (7) day period following receipt of the written grievance, the parties shall meet in an attempt to resolve the grievance. Neither party shall bring more than three (3) representatives to such meeting unless otherwise agreed to in advance by both parties; the Hospital shall bring the relevant supervisor and/or manager and no more than one (1) Union Shop Steward shall attend on paid time and/or while on duty unless otherwise agreed to. The Hospital shall respond in writing to the grievance within ten (10) days after the Step 1 meeting.

b. Step 2 – Review by Director of Human Resources

If the grievance is not resolved at Step 1, or the Hospital fails to respond within ten (10) business days after the Step 1 meeting, the Union may proceed by delivering a written statement indicating its intent to proceed to the Director of Human Resources, or designee. This must be accomplished within seven (7) days of the date of the Hospital's Step 1 response. During the seven (7) day period following receipt of the written intent to proceed, the Director of Human resources, or designee, the Union Staff Representative, or designee, and the parties shall meet in an attempt to resolve the grievance. Neither party shall bring more than three (3) representatives to such meeting unless otherwise agreed to in advance by both parties. No more than one (1) Union Shop Steward shall attend on paid time and/or while on duty unless otherwise agreed to. The Hospital shall respond in writing to the grievance within ten (10) days after the Step 2 meeting.

32.5 HOSPITAL GRIEVANCES

Hospital grievances shall be submitted at the Step 3 level in writing to the Union's Representative. If requested, a Union Representative and Director of the Human Resources, or designee, shall meet in an effort to resolve the grievance within twenty (20) days of the date of the written grievance. The Union shall provide an answer, in writing, within ten (10) days following the meeting, or within ten (10) days after the date of the Hospital's grievance if no meeting is requested.

32.6 ARBITRATION

If the parties are unable to resolve the grievance pursuant to the above procedures, or the either party fails to respond within ten (10) business days after the Step 3 meeting, either party may submit a written request for arbitration to the other party within thirty (30) days of receipt of the Step 3 response.

Within seven (7) days of receipt of a request for arbitration, the parties will attempt to reach mutual agreement on an arbitrator. If they cannot do so in that time frame, they will jointly

request a panel of seven (7) arbitrators from the FMCS. The parties will alternately strike names from that list until they have reached agreement, or only one (1) name remains. The parties will make a good faith and reasonable effort to strike the arbitrator list within fourteen (14) days.

The parties may mutually agree in writing to conduct an expedited arbitration pursuant to FMCS expedited arbitration procedures.

The costs associated with the arbitration, such as arbitrator fees, room fees and transcript costs shall be shared equally by the parties. This Section does not apply to either party's legal fees.

The Arbitrator shall have no power or authority to add to, to subtract from or to change any of the terms or provisions of the Agreement. The arbitrator's authority will be limited to interpreting the provisions of the Agreement. The arbitrator's decision will be final and binding upon all parties concerned.

ARTICLE 33 - NON DISCRIMINATION

There shall be no discrimination by either party to this Agreement or by any covered employees because of membership or non-membership in the Union, or because of participation or lack of participation in activity on behalf of or in opposition to the Union; or on the basis of race, religious creed, political affiliation, color, national origin, ancestry, physical or mental disability, medical condition, marital status, sex (including pregnancy, childbirth, and medical conditions relating to pregnancy or childbirth), gender/gender identity, gender expression, age, sexual orientation, military and veteran status, genetics, or any other legally protected characteristic.

ARTICLE 34 - SAFETY

- 34.1 The Hospital, the Union and the employees shall comply with their obligations and/or rights under applicable laws regarding safety and health in the workplace. The Hospital agrees to review and investigate claims involving health and safety concerns that are presented in writing by the employees and the Union following established Hospital protocols and the Hospital will provide a timely written response.
- 34.2 The Hospital shall continue to provide required in-service or other training and information to employees concerning health and safety.
- 34.3 The Union may appoint one (1) bargaining unit employee and one (1) alternate from each of the three (3) bargaining units to the Hospital's safety committee. The Union appointees (or alternates) shall be released from his/her duties with no loss of pay to attend safety committee meetings.
- 34.4 STAFFING COMMITTEE
- The Union and the Hospital agree that adequate staffing ensures safe patient care and the health and safety of employees. A Staffing committee shall be created for the purpose of reviewing staffing concerns at the Hospitals and will meet on a quarterly basis. The Staffing Committee will report out to Hospital's Safety Committee. The Staffing Committee shall be chaired by a member of the Human Resources team and will include one representative from

each unit appointed by the Union. Time spent attending Staffing Committee meetings by Union members will be paid time but shall not count as "hours worked."

ARTICLE 35 - LABOR MANAGEMENT ADVISORY COMMITTEE

35.1 OBJECTIVES

The objectives of the Labor Management Advisory Committee (LMAC) are: to resolve disputes without resorting to the grievance process where possible; review concerns about patient care; staffing, evaluate and/or recommend improvements to internal processes for the benefit, health and safety of employees covered by this Agreement; and to otherwise provide a method to improve labor-management relationships at the hospital.

Nothing in this Article shall prohibit either party from filing a grievance without first bringing the issue to the LMAC.

35.2 COMPOSITION

The LMAC will be comprised of six (6) committee members, three (3) each from the Hospital and the Union. Should either party wish to bring additional representatives as guests or to address a specific topic, they will notify the other party of the additional representatives as part of the exchange of proposed agendas.

35.3 MEETINGS

The LMAC shall meet quarterly at mutually agreeable times. Upon mutual agreement, the LMAC may schedule additional meetings as needed. To the extent possible, the meetings shall be scheduled so as not to conflict with the work schedules of employee committee members. Union representatives shall suffer no loss of pay due to their participation in the LMAC.

The LMAC will schedule meeting dates one (1) year in advance. Proposed agendas will be exchanged in advance of each meeting with the intent of allowing the other party to properly prepare for the meeting.

35.4 DISPUTE RESOLUTION

In the event the LMAC cannot resolve a difference of opinion, either the Union or the Employer, within thirty (30) days following the LMAC's failure to reach a resolution, may refer the difference of opinion to a mutually agreed upon neutral third party to mediate the dispute. If there is no agreement on the mediator, the mediator shall be selected from the Federal Mediation and Conciliation Service. The mediator shall not have the authority to issue a binding decision.

In making any recommendation, the Mediator must take into account area standards on staffing, state and federal laws, physician recommendations regarding quality of care, business and any other relevant information presented by the parties.

ARTICLE 36 – SAVINGS CLAUSE

Should any provision of this Agreement be found to be in conflict with State or Federal law by a court or government agency of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect. In the event of such a finding, the parties will meet and attempt to negotiate a substitute provision.

ARTICLE 37 – SUCCESSORSHIP

It is the intent of the parties to this Agreement that it shall remain in force and effect for its term, notwithstanding any sale or transfer by the Hospital to any other entity. The Hospital may not use any sale, transfer or other mechanism to evade the terms of this Agreement.

Notification. The Hospital shall notify the Union in writing at least sixty (60) days prior to selling or transferring the Hospital to any other entity.

ARTICLE 38 - STRIKES AND LOCKOUTS

- 37.1 For the duration of the Agreement, and any extensions there to, the Union and its members or other agents shall not threaten, sanction, encourage nor participate in any way in any strike, sympathy strike, walkout, slowdown, sickout, or other interference with any operation of the Hospital covered by this Agreement. In the event any such action occurs, or is threatened, the Union and its representatives will immediately take all appropriate action to end or avert same.
- 37.2 The Hospital agrees that during the term of this Agreement or any extensions there to, it will not engage in any lockout of employees covered by this Agreement.
- 37.3 Neither the violation of any provision of this Agreement by any person, nor any other act or omission by any representative of either party, will excuse either the Union, the Hospital or bargaining unit employees from any and all of their obligations covered by this Article.

ARTICLE 39 – DURATION

This Agreement shall become effective upon ratification (June 13, 2025) and shall remain in full force and effect through April 29, 2028.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the effective date of the Agreement.

APPENDIX J – SIDE LETTER – RESIDUAL SERVICE UNIT – ST. JOSEPH EUREKA

Scope of Agreement

Any mandatory subject or impact related to a mandatory subject not covered within this agreement or the existing CBA is subject to bargaining at the request of either party. The parties may agree to engage in additional bargaining over non-mandatory subjects by mutual agreement. The terms and conditions of the existing CBA shall apply except as outlined in this side letter.

Wages

The employees will be placed on the appropriate grade and step as indicated on the attached spreadsheet effective the beginning of the next full pay period.

In the event an employee is making above the appropriate wage, they will be “red-circled,” i.e. they will not receive base pay increases until the scale passes their existing wage. Those individuals will receive a one-time bonus equivalent to the raise (step or cost of living) they would have otherwise received.

Pursuant to the certification of the National Labor Relations Board (“NLRB”) in Case No. 20-RC-180700, the Hospital recognizes the Union as the exclusive collective bargaining representative for all employees employed by the Hospital in job classifications that are set forth here:

Short-Term Disability and Workplace Injury and Protection Plan

All employees in the job classes covered by this agreement shall be included in the Employer’s short-term disability and workplace injury and protection plan as outlined in the Employer’s August 9, 2016 memo.

Maintenance of Past Practices

The Hospital agrees to follow labor law with respect to the maintenance of past practice when a CBA is in effect.

Unanimous Recommendation for Ratification

The Union's bargaining team, as signed below, unanimously recommends this contract for ratification to its membership.

Legal Matters

The Union hereby withdraws and releases all pending unfair labor practice charges against the Hospital, including National Labor Relations Board (NLRB) Charge No. 20-CA-252337, and further represents that the provisions of this overall tentative agreement, provide a full and adequate remedy for the alleged violations in those charges. The Union agrees that withdrawal of the charges should be approved by the NLRB as this settlement fully satisfies the *Independent Stave* factors. The Union will extend full cooperation in securing approval of the withdrawal of all such charges, and the Union hereby authorizes the Hospital to inform the NLRB of the withdrawal of its charges.

The Hospitals agree to submit the pending grievance filed on behalf of Crystal Sanchez (Crystal Sanchez Discharge Grievance), which arose after the parties' labor agreement expired, to final and binding arbitration, should the Union give notice of its desire to arbitrate said grievance. The Hospitals retain and do not waive any substantive or procedural arguments with respect to said grievance.

LETTER OF UNDERSTANDING #1

St. Joseph Hospital, Eureka and Redwood Memorial and National Union of Healthcare Workers

During negotiation of the parties' 2020-2024 labor agreement, St. Joseph Hospital, Eureka and Redwood Memorial Hospital, and the National Union of Healthcare Workers (the "Parties") agreed to create a new job classification called Lead Radiologic Technologist, with an assigned entry wage grade of 25E. The Parties agree that any employee assigned to or reclassified as a Lead Radiologic Technologist at the time of contract ratification, shall not suffer a reduction in his/her/their base wage rate due to the assignment/reclassification, and his/her/their base wage rate shall be "red-circled" until such time as the wage grid step appropriate to the employee exceeds his/her/their existing base wage rate.

LETTER OF UNDERSTANDING #2

St. Joseph, Eureka Hospital and Redwood Memorial Hospital and the National Union of Healthcare Workers

The last negotiation cycle between St. Joseph, Eureka Hospital and Redwood Memorial Hospital (the “Hospitals”) and the National Union of Healthcare Workers (the “Union”), collectively “the “Parties,” ended on April 20, 2020 with the Parties reaching a comprehensive settlement agreement, which was subsequently ratified by a majority of the bargaining unit on April 29, 2020. After ratification, as the Parties worked to finalize the new 4/29/2020-4/30/2024 Collective Bargaining Agreement (the “CBA”), they identified two items about which they have had ongoing disagreement. To resolve their disagreement, the parties have agreed to the following terms.

1. The parties agree the language of Article 22 of the CBA shall be revised as follows:

PTO hours accrue: 1) on hours worked up to a maximum of eighty (80) hours in a pay period, 2) while PTO is being utilized, 3) on scheduled days taken off because of Hospital census, 4) while working Extra Pay for Extra Shifts/Cold Call.

2. The parties reiterate their understanding that pursuant to express language of Articles 5 and 7 of the CBA management retains the following rights:

5.2.i To establish qualifications, job descriptions, standards of performance and to determine processes for evaluation of all positions covered by this Agreement.

5.2.n To establish new job classifications, as well as modify requirements and/or eliminate existing classifications.

7.3 If the Hospital substantially modifies the qualifications and/or requirements (including added educational prerequisites) of a job covered by this Agreement, such modified job description shall be forwarded to the Union prior to implementation. If the Union so requests, the parties shall meet and confer concerning such modifications within seven (7) business days of notice to the Union.

3. The Parties further agree that the Hospitals acted within their rights under Articles 5 and 7 when they modified the Lift Team job description, and that the Hospitals retain the discretion to modify job descriptions as clearly outlined in those articles. The Union hereby withdraws its objections to the September 14, 2020 version of the Lift Team job description and will not file or pursue any grievances or other claims arising from the new job description.

This Letter of Understanding shall become effective upon execution by the Parties, and shall remain in full force and effect through April 30, 2024.

MEMORANDUM OF UNDERSTANDING

Step Placement and Credit for Past Experience. The Employer and the Union are currently negotiating a new wage scale for the Professionals bargaining unit at St. Joseph Eureka Hospital. Caregiver's step placement and credit for past experience will be determined as outlined below:

- a. Recognition for Past Experience:
 - i. All caregivers in the newly certified Professional Unit at St. Joseph Eureka Hospital, and any newly hired caregivers joining that Unit during the term of this CBA, shall be given full credit for relevant experience as determined by management when placed on the wage scale. Relevant experience may include work in the same or comparable job, performing similar or substantially equivalent job duties, or having a similar or higher level of training or expertise. Relevant experience may also include work in a related job utilizing skills that can be directly transferable to the job duties of the job classification being evaluated.
 - ii. Defining relevant experience. Management will provide to the Union a list of the standard criteria for defining relevant experience on or before June 1, 2025.
 - iii. After the standard criteria have been provided to the Union, caregivers shall have fourteen (14) days to submit an attestation form to their manager/supervisor requesting a review of what their step placement should be and supporting documents to be reviewed by management. Management will review the information provided and determine the appropriate step at which to place the respective caregivers that reflects their relevant years of experience at a 1:1 ratio, and shall notify the caregiver in writing within thirty (30) days of the form being submitted of its determination as to the appropriate step placement.
- b. If an employee disagrees with their step placement, they have twenty-one (21) days after receiving notification of their step placement to request that they be placed at a higher step based on their years of relevant experience in comparable jobs. Management will determine whether an upward adjustment in step placement is warranted for each request within twenty-one (21) days. Management's determination will be final and not subject to the Grievance and Arbitration Article.
- c. To the extent management determines that a caregiver's base wage rate does not reflect the caregiver's relevant years of experience, the caregiver shall be placed on the appropriate step as determined by management as follows:
 - i. On the third full pay period following management's final determination, the caregiver will be placed at a step no more than three steps above the step closest to but not below their red-circled base hourly wage.
 - ii. Effective the third full pay period following the first anniversary of contract ratification, caregivers continuing to be below the appropriate scale placement as determined by management will have their step placement adjusted to the appropriate step.

THE SEVEN POINTS OF JUST CAUSE FOR DISCIPLINE

If the answer to these seven questions is **YES**, Management has a just cause for discipline:

1. **Fair Notice** – Did Management make the worker aware of the rule or policy which they are being accused of violating?
2. **Prior Enforcement** – Has Management recently enforced the rule or policy or penalized other workers for violating the same rule or policy?
3. **Due Process** – Did Management conduct an interview or hearing before issuing the discipline, take action promptly and list charges precisely?
4. **Substantial Proof** – Was Management's decision to accord discipline based on credible and substantial evidence?
5. **Equal Treatment** – Is the punishment Management is proposing consistent with the punishment other workers received for the same or substantially similar offense?
6. **Progressive Discipline** – During the disciplinary process, did Management issue at least one level of discipline that allowed the employee an opportunity to improve?
7. **Mitigating and Extenuating Circumstances** – Was the discipline proportional to the gravity of the offense, taking into account any mitigating, extenuating or aggravating circumstances?
